

GUARDIAN
SERVICE INDUSTRIES INC.

ENGINEERING & OPERATIONS

Guardian offers a variety of building maintenance and repair services to provide you with trained and experienced personnel to implement services and achieve cost savings.

Guardian's senior management holds over 100+ years' experience in the design, operations and maintenance of various types of facilities, inclusive of transportation hubs, data centers, corporate headquarters and public buildings.

Our approach includes developing a tailored plan that addresses the specific needs of your facilities, which assures the achievement of your objectives and generates immediate and cumulative cost savings.

We've gained a reputation as a premier service provider in the industry, and have developed a solid reputation for creating innovative building management and energy performance solutions. This includes retrofits and replacements of older, less efficient systems with newer, high efficiency systems. Additionally, our on site management and engineering staff have the experience to operate and maintain all types of mechanical systems, including Package units, Chiller/Boiler Plants and Absorbers.

Servicing the Northeast since 1918, please contact us for a **FREE ESTIMATE.**
