

# Clorox® Total 360® System

For cold and flu viruses and norovirus prevention and outbreak strategies

## Superior Coverage with Trusted Clorox® Solutions

### During Cold and Flu Season

Guardian is proud to offer the first system that pairs an electrostatic sprayer with a portfolio of Clorox® disinfectants and sanitizers. Electrostatic technology enables superior coverage of trusted Clorox® solutions in hard-to-reach places — the side, underside and backside of surfaces. Using the Clorox® Total 360® Electrostatic Sprayer to apply Clorox® Total 360® Disinfectant Cleaner eliminates odors and gives you a healthier facility this cold and flu season.

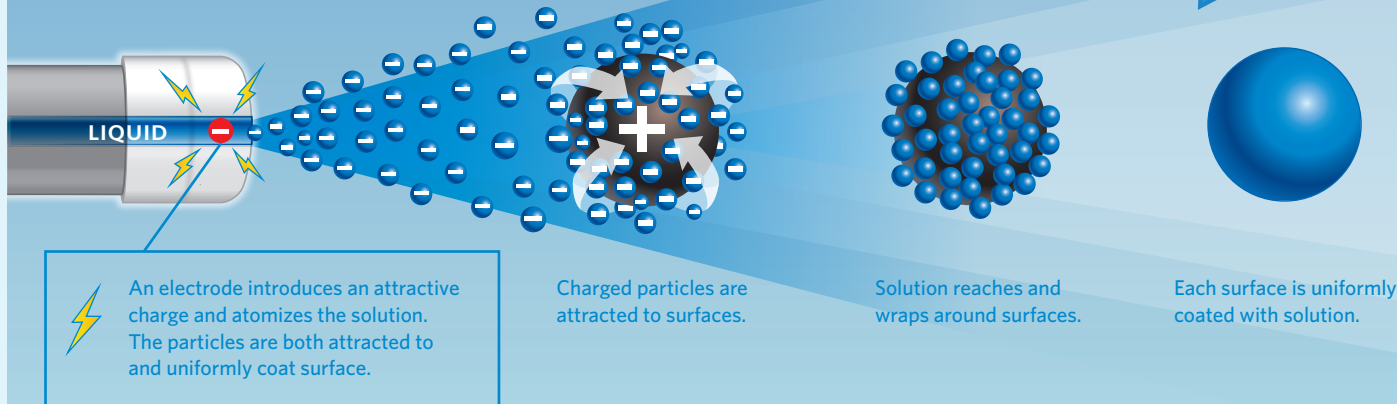

### Electrostatic Technology

Electrostatic technology enables Clorox® sanitizers and disinfectants to reach the side, underside and backside of surfaces.

Uses an air compressor for quiet, powerful liquid flow

FORCE STRONGER THAN GRAVITY

# The greatest threat to your bottom line is illness in your school or workplace.

## Cold and flu viruses spread easily throughout your facility:

**\$3.9 Million** — the amount a pro sports team lost due to gastrointestinal illnesses.<sup>1</sup>

**1-4 Days** — typical time it takes for symptoms to show up once a student or employee is infected with a cold or the flu.<sup>3</sup>

**7** — number of days a virus can live on hard surfaces.<sup>5</sup>

## Norovirus is highly contagious:

**\$400,000** — cost to a major university to combat a norovirus outbreak.<sup>2</sup>

**5 Billion** — approximate number of norovirus particles in a gram of feces.<sup>4</sup>

**18** — number of norovirus particles required to infect a student or employee with norovirus.<sup>6</sup>

**Athletic Facilities**  
Cold and flu impact where you train.

**Classrooms**  
Cold and flu impact where you learn.

**Office Facilities**  
Cold and flu impact where you work.
